

INTERNSHIP REQUEST

The staff of Adult Care of Austin, PA is dedicated to the education of the next generation of health care providers. We maintain a 1:1 provider-intern ratio in order for the intern to get as much experience as possible.

Scheduling internships has become a time-consuming task. We receive a great many requests, but unfortunately, we are limited in how many we can accept. If you would like to request hours, please fill out the form below in its entirety. We hope we can be of help to you!

Please DO NOT respond that you will take any hours available or that you are flexible and will work around the providers' or other students' schedules. We appreciate your flexibility and kindness, but this actually makes more work for us and your request will go to the bottom of the pile. We simply don't have the staff time to coordinate many different students' schedules.
